Subject: Stop Attacking Section 504! Drop Out of Texas v. Becerra!

Dear Attorney General [Name],

I live in [where], and I have a disability. [Explain what disability you have and what accommodation you use].

I care about Section 504. I am deaf and rely on interpreting services when I communicate with any businesses or medical team. I also rely on captioning services when watching a video or city/national news. I support the updated Section 504 rules. The updated rules are stronger and give more examples of what disability discrimination is.

I am very upset and angry that you have joined a case in Texas called *Texas v. Becerra* that goes against Section 504 and the updated rules. You are asking the court to get rid of Section 504 rules and the entire law. If the court does what you ask, I will not have full access to accommodation. I will not have equal rights. This will be true for all the other disabled people in the [name of your state].

I beg you to drop out of *Texas v. Becerra*. You should support Section 504 and its rules. You should not be attacking our rights.

I want you to meet me and other people with disabilities. We want to talk to you about the case and why we are so concerned about it.

Sincerely,
[Your name]
